## Regional Bus Plan Public Input Opportunity

The regional transit providers are finalizing their community investment plan for Durham, Orange and Wake County.

# GO FORWARD

A COMMUNITY INVESTMENT IN TRANSIT

### Durham and Orange County Residents:

As we go forward with our community investment in transit, GoTriangle is conducting a Short-Range Transit Plan to establish our community's regional bus network for the next 10 years.

Goals include faster, more frequent and continuous service. Click below to see the transit plan and share your thoughts:

**Durham County:** <http://goforwardnc.org/county/durham-county/about/>

**Orange County:** <http://goforwardnc.org/county/orange-county/about/>

### Wake County Residents:

Because Wake County voters said yes to a community investment in transit in 2016, more frequent routes, longer service hours and improved bus stops already have made life easier and opportunities more accessible for many of our neighbors.

Coming over the next year, among many improvements, are more trips on GoTriangle's popular Raleigh-Durham express route, a high-frequency GoRaleigh route along Martin Luther King Jr. Boulevard and a GoCary route servicing Weston Parkway.

To view the revised plans you helped shape and tell us what you think, go here:

# TRANSIT

## ...AND TREATS...

---

### Downtown Employer Outreach | Wake Transit

Thanks to the hundreds of downtown Raleigh commuters we met with in early September. It was great to hear all your ideas on the changes you'd like to see with the Wake Transit Plan. Staff at the transit agencies will now work to compile this information and use it to inform long term strategic planning for the region.

Thank you to all businesses that had staff come onsite. If you'd like us to stop by during the next round of public comment, [please reach out](#) and we can add you to our list going forward.

E-mail [anne.galamb@raleighnc.gov](mailto:anne.galamb@raleighnc.gov) to be added to the Downtown Employer Outreach list.

## Get There with Transit

Transloc Rider puts you in control with real-time updates and tools to get you where you need to go. Download the app on Google Play or Play store or view online <http://triangle.transloc.com/>

## SharetheRideNC.org

is a statewide ridematching database. It also houses Emergency Ride Home which gets smart commuters home in case of an emergency and GoPerks for smart commuter rewards.
